

Quick Usage Guide: Job Board Module

This guide will go through important user and admin functionalities in no particular order.

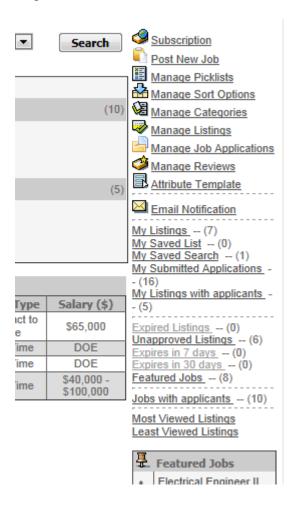

Job Board's Main page

Quick Links for Administrator

Administrator can easily access administration tasks through the quick links on top section of right column of the *Main* page. We will go through these Quick Links for Administrator below.

Summary of accessible roles

	Host /	Registered	*Role that can	*Role that can	*Role that can	*Role that can
	Admin	Users	manage category	manage listing	add listing	manage review
Subscription	X	X				
Post New Job	X				X	
Manage Picklists	X					
Manage Sort Options	X					
Manage Categories	X		X			
Manage Listings	X			X		
Manage Job Applications	X					
Manage Reviews	X					X
Attribute Template	X					

^{*}Role that can be set on **Edit Options** page.

ADD/UPDATE/DELETE Listing

Users will be able to see *Post New Job* link if they are in **Roles that can add listings** (set in **Role and Security Settings** on **Edit Options** page). This page has several sub sections which we will go through each one of them in the moment. Mostly, more granular permissions can be specifically assigned for each particular section. This can be configured in conjunction with different subscription plans to allow different privileges.

1. *Listing Home*: This is the main information of the listing. Company Logo will be added here on this section. This section has to be completed first for the ItemID to be automatically generated before proceeding to the next sections. When **User Notification Options**, in **Email and Notification Settings** section on **Edit Options** page, is set to be <u>Notify category subscribed users</u>, *Notify applicable users* CheckBox will be shown at the bottom of this *Listing Home* page. When you add/update the listing and want those <u>Category Subscribed Users</u> to be notified, please check the *Notify applicable users* CheckBox before process to click *Update*.

2. Add Attribute: Users can use this section for item's specifications or anything that applies to this particular item if they can't find any other appropriate section to put them. There is no limit on the number of per item attributes. To allow access to this section to only certain roles, go to authorize Roles that can add item attributes in Roles and Security Settings section on Edit Options page.

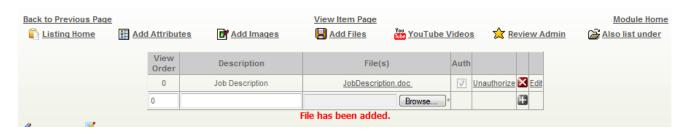

3. Add Images: This section can be used to add additional images to the listing. To set Number of Images can be added here, go to Max Limit in Image/File/Video Settings section on Edit Options page. Also, if Require individual item authorization? (can be set in Image/File/Video Settings section on Edit Options page) is enabled for Related Images, each Image added here can be individually authorized/unauthorized by Administrative role users. To allow access to this section to only certain roles, go to authorize Roles that can add additional images in Roles and Security Settings section on Edit Options page.

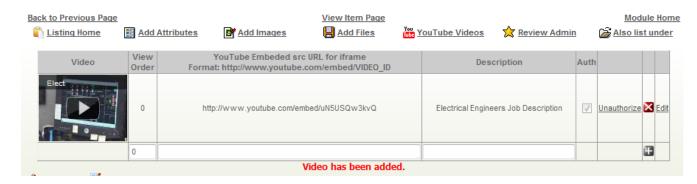

4. Add Files: This section can be used to add related files to the listing. To set Number of Files can be added here, go to Max Limit in Image/File/Video Settings section on Edit Options page. Also, if Require individual item authorization? (can be set in Image/File/Video Settings section on Edit Options page) is enabled for Related Files, each file added here can be individually authorized/unauthorized by Administrative role users. To allow access to this section to only certain roles, go to authorize Roles that can add files in Roles and Security Settings section on Edit Options page.

5. YouTube Videos: User can use this section to add YouTube Videos to his/her listing. To set Number of Videos can be added here, go to Max Limit in Image/File/Video Settings section on Edit Options page. Also, if Require individual item authorization? (can be set in Image/File/Video Settings section on Edit Options page) is enabled for YouTube Videos, each video added here can be individually authorized/unauthorized by Administrative role users. To allow access to this section to only certain roles, go to authorize Roles that can add videos in Roles and Security Settings section on Edit Options page.

Note: *You Tube Video Link* is Value of src and will be in the form of http://www.youtube.com/embed/Xyy4Zccc0, can be found from You Tube Embed code For example:

- From You Tube Website, You Tube Embed code is:
 <iframe width="560" height="345" src="http://www.youtube.com/embed/Udl6rP5shs0" frameborder="0" allowfullscreen></iframe>
- To input into module's You Tube Videos setting, You Tube Video Link is: http://www.youtube.com/embed/Udl6rP5shs0

6. **Review Admin**: This section will be visible only to Users with Administration Role. This section allow review administrator to authorize/delete review. An admin, however, will not be able to change the rating and review content. If you do not wish to administer this process then you can bypass this on the Edit Options page under Review Settings by setting review to not require authorization. You can also disable the review feature all together if it does not apply to your business rules. To allow access to this section to only certain roles, go to authorize **Roles that can manage review** in **Review Settings** section on **Edit Options** page

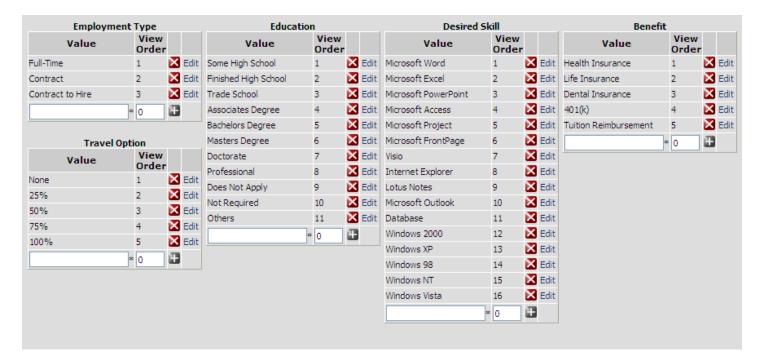

7. *Also list under*: This section will allow this particular listing to be listed under multiple categories. Search functionality, however, will not return duplicate listings. To allow access to this section to only certain roles, go to authorize Roles that can assign multiple categories in Roles and Security Settings section on Edit Option page.

Manage Picklists

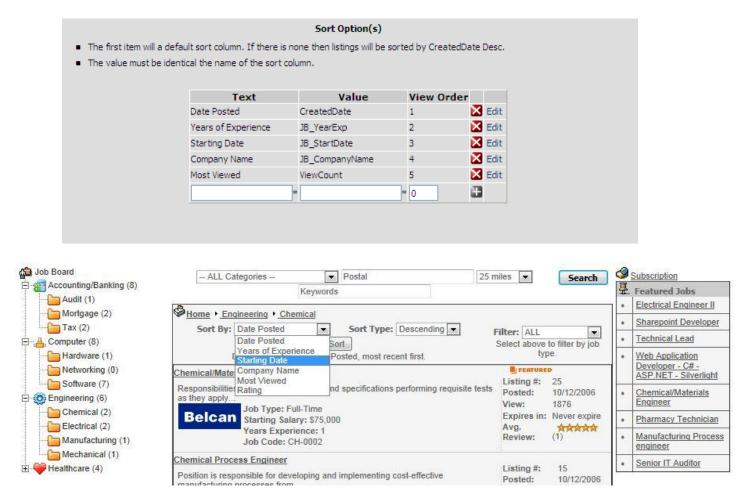

Manage Picklists is a central location for you to ADD/UPDATE/DELETE picklist items used on post listing page. They are mostly used to populate applicable list controls used on the *Add item* page. One thing to remember is that if the picklist value is deleted or updated after original value has already been posted then the list control will not be able to find matched item on the edit mode.

Manage Sort Options

This section is used to ADD/UPDATE/DELETE sort options. *Text* can be arbitrary set but *Value* is required to be identical to the name of the sort column. The first item on the list will be treated as a default sort column. If nothing has been added to this section then listings will be sorted by *CreateDate Desc*.

Note: To make this Sorting feature visible in your *DataGrid* View, you have to enable Sorting, can be set on **Edit Options** page.

Manage Categories

Users will be able to manage categories if they are in **Roles that can manage categories** (set in **Role and Security Settings** on **Edit Options** page). Clicking on the *Manage Categories* on the *Main* page will get them to Category Administration page shown at the bottom of this section.

Authorized users will be able to ADD/UPDATE/DELETE category. Nested categories can be created by assigning appropriate parent category. Please take an extra step to double check that each category does not direct or indirectly reference itself as a parent to cause infinite loops.

When you select Listing Fee Method to be Per Category Fee (can be set in Payments Settings on Edit Options page), *Payment Required?* and *Price* columns will be visible. You may set whether you want to charge and how much for any user to post a listing in each category.

You can disable user to post listings to certain categories (such as pass through categories) by uncheck the checkbox *Enable Listings?*

Also, you may customize an icon for any category. After click *Edit* button for any category, browse to choose your own preferred Category Icon and then check *Overwrite Icon* and click *Update*. You have an option to activate/inactivate your customized category Icons; to do so please see **Show Custom Category Icon?** in **Image/File/Video Settings** in **Edit Option Instruction**. (Samples of customized Icons used in this documentation are from http://www.aha-soft.com. They're not included in the module).

Note: Each listing has to be assigned to a category. At least one category has to be created before listing can be added.

		Active Items	Category Name	Parent Category	Payment Required ?	Price	Enable Listings?	Custom		
Accounting/Banking	9	8	Accounting/Banking			0.00	V	45	×	Edit

Manage Listings

Users will be able to manage listings if they are in **Roles that can manage listings** (set in **Role and Security Settings** on **Edit Options** page). Clicking on the *Manage Listings* on the *Main* page will get them to Listing Administration page shown at the bottom of this section.

Manage Listings allow quick administration to authorize listing, make featured listing, and change listing expiration date. *Copy* feature will allow you to copy existing listing to a new one with similar main content (excluding images, files, reviews, attributes, etc to avoid confusion).

The dropdown list at the top will let you filter through different criteria of listings (such as featured, expired, unapproved, most viewed, etc). The number of listings correspond to each group will also be shown on the top right corner.

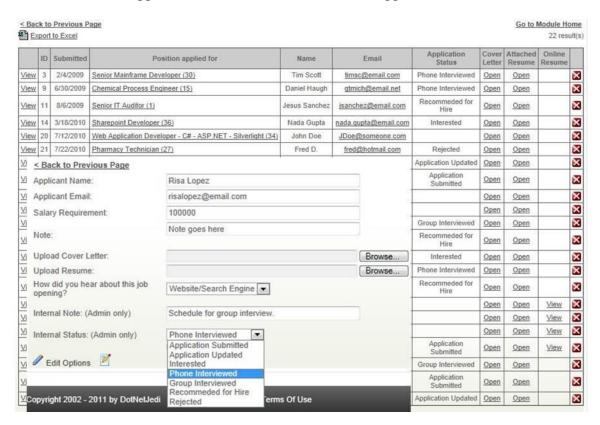

Export to Excel will export all the listings for that particular group to excel with complete information. **RSS** feature will generate RSS feed for your selection but only brief information with the URL to link back to the listing page.

Manage Job Applications

Administrator will be able to view a list of all Applications submitted, through the module, including Application Status. From that List, Administrator will be able to view and edit each Application, and also update Internal Note and Application Status for each individual Application submitted.

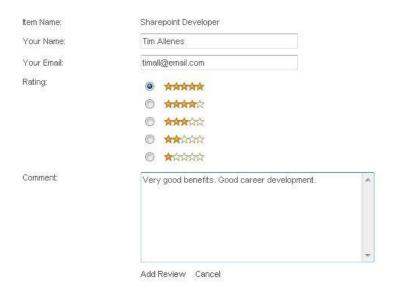

Manage Reviews

Users will be able to manage reviews if they are in **Roles that can manage review** set in **Review Settings** section on **Edit Options** page. Clicking on the *Manage Reviews* on the *Main* page will get them to Listing Administration page shown below. *Manage Reviews* allows quick administration to authorize or delete reviews.

ReviewID I	ItemID	Reviewer Info	Rating	Review Date/Comment	Auth	
2	25	Name: Tom Smith Email: tom.smith@host.com	***	Review Date: 1/15/2009 Comment: Very Good	V	Authorize 🔀

6	27	Name: Venus Yawn Email: venus@email.com	***	Review Date: 10/12/2010 Comment: Good employer. Great follow up. Serious Recruiter.		Authorize 🔀
7	18	Name: Nick Jeden Email: nickj@email.com	क्षेत्र केत्रके	Review Date: 10/12/2010 Comment: Never response.	V	Authorize X

≻ Write a review

Review (if enable) can be written by following the *Write a review* link at the top of the *More-Detail* page. Depend on the module **Edit Options** settings; user's review might not be immediately active if authorization is required. All the authorized reviews will be populated at the bottom of the detail page. Cookie Interval is used to prevent the same user to review multiple times. In addition, there is helpful poll at the bottom of each review. This also has a mechanism built in to check and prevent duplicate vote. To allow access to this *Write a review* section to only certain roles, go to authorize **Roles that can add review** in **Review Settings** section on **Edit Options** page.

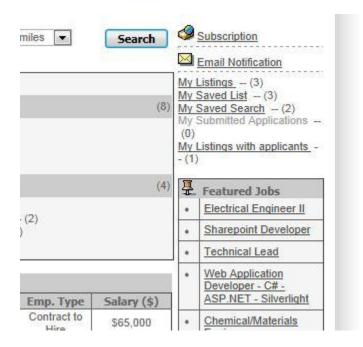

Attribute Template

Clicking on the *Attribute Template* on the *Main* page will get users with administrative role to *Predefined Attribute* page shown below. In this page, administrative users will be able to predefine some attributes as default attributes which end users can find in *Attribute* section when they post/update any listing (see *Add Attribute* section in <u>ADD/UPDATE/DELETE Listing</u> on the upper part of this documentation.

Quick Links for Registered Users

Registered User can easily navigate through these Links to accomplish some useful module's functionalities. After Login, these Quick Links for Registered Users will be visible for them on top section of right column of the *Main* page. We will go through these Quick Links for Registered Users below.

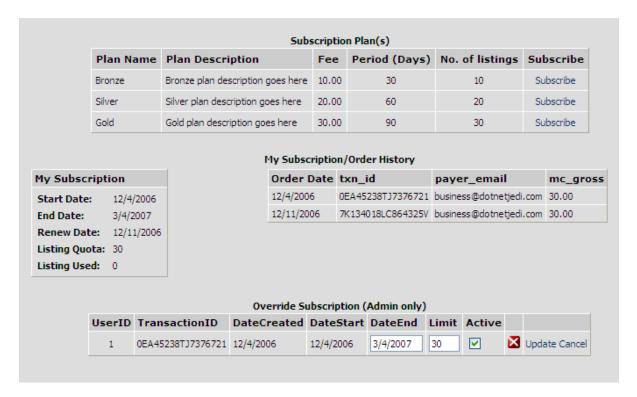

Subscription

If **Listing Fee Method** is set to be <u>Subscription Plans</u> (can be set in **Payment Settings** on the **Edit Options** page), the *Subscription* link will be shown on the top right of the *Main* page. For Administrator to create *Subscription Plan*, please see **Listing Fee Method** in **Payment Settings** section in **Edit Options Instructions**. Users need to Login to access to *Subscription Plan* page.

On *Subscription Plan* page shown below, clicking on the *Subscribe* link will get the users to select plan they want to subscribe and follow through to make payment (through PayPal).

Subscription Plan(s)									
Plan Name	Plan Description	Fee	Period (Days)	No. of listings	Subscribe				
Bronze	Bronze plan description goes here	10.00	30	10	Subscribe				
Silver	Silver plan description goes here	20.00	60	20	Subscribe				
Gold	Gold plan description goes here	30.00	90	30	Subscribe				

If the user has already subscribed to the plan then this same page will also show additional information of *My Subscription/Order History* of that particular user as shown on the screenshot below.

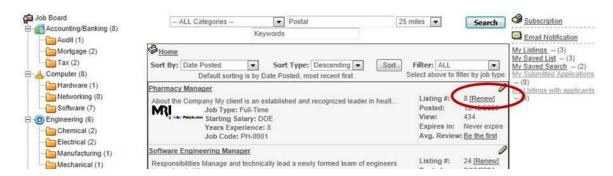

The user can renew the subscription anytime by following through the same subscribe link without losing existing benefits. Listing quota will be automatically accumulated to the remaining of the existing plan. The same applied to listing period which will be extended from the end date for the existing plan not the renewal date.

Note: The bottom section that says *Override Subscription (Admin only)* will only be visible to admin. This can be used to make exceptions to the listing end date and quota for each user. You can also temporary put the user subscription on hold by removing him/her from the active status on the right.

Also, if **Renewal Enable** (per listing) is enabled (can be set in **Payment Settings** on the **Edit Options** page), User will be able to Renew their own individual listing at any time. Users need to Login to renew their Listings. **Renew** link will be visible next to Listing # in **DataGrid** View of the **Main** page, see picture below. For Administrator to create **Renewal Plan**, please see **Renewal Enable** (per listing) in **Payment Settings** section in **Edit Options Instructions**.

	Renewal	Option(s)		
Renewal Option	Description	Renewal Fee (Per Listing)	Listing Period (Days)	Renew
\$3 for 30 days	\$3 for 30 days Desc	3.00	30	Renew
\$6 for 60 days	\$6 for 60 days Desc	6.00	60	Renew

Email Notification

When **User Notification Options** is set to be <u>Notify category subscribed users</u>, Registered Users will be able to subscribe for Email Notification when Listings are added/updated. **User Notification Options** can be set in **Email and Notification Settings** section on **Edit Options** page.

If **User Notification Options** is already set to be <u>Notify category subscribed users</u>, Registered users, after Login, will be able to see *Email Notification* link on the top of right column of the module. *Email Notification*, as one of the Quick Links for Registered Users, will let Users access to *Subscribed Categories* Page which allow Users to subscribe to any Category that they want to get Email Notification when the listings are added/updated. (Please also see *Listing Home* in <u>ADD/UPDATE/DELETE Listing</u> section above.

Seack to Previous Page

Note: To avoid excessive emails, sub-categories listings of your subscribed categories will not be automatically notified.

Please explicitly subscribe to specific CategoryIDs you would like to be notified.

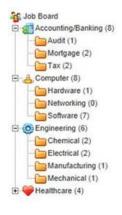

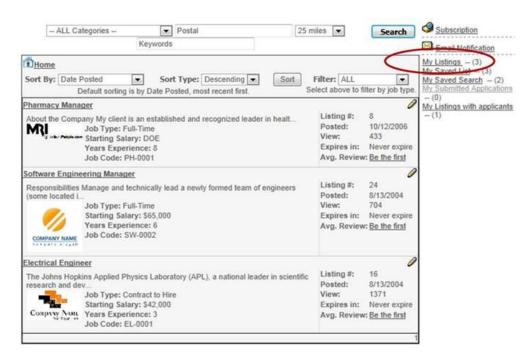

You have subscribed to: Accounting/Banking > Tax (15)

My Listings

Registered users, after Login, will be able to see *My Listings* link on the top of right column of the module. *My Listings*, as one of the Quick Links for Registered Users, will allow those users to simply view their <u>own</u> Listings in *DataGrid* View.

My Saved List

Registered users, after Login, will be able to see *My Saved List* link on the top of right column of the module. *My Saved List*, as one of the Quick Links for Registered Users, will let Users access to *My Saved List* Page which allow Users to view a list of their saved Listings. When click into any Saved List, *More Detail* Page of that Saved Listing will be open.

Date Saved	Saved Items	
12/27/2011 2:48:35 PM	Technical Lead	×
12/27/2011 2:48:07 PM	Electrical Engineer	×
12/27/2011 2:29:44 PM	Electrical Engineer II	×

> To add to My List

Registered Users will be able to save their interesting Listings to My Saved List by Add to My List link in Page Options section on More Detail Page.

My Saved Search

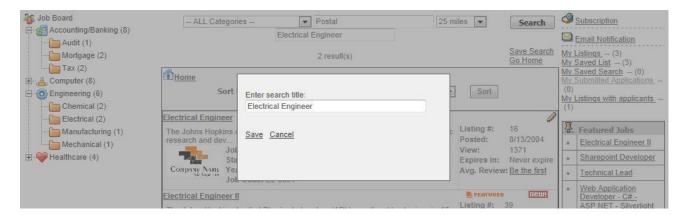

Registered users, after Login, will be able to see *My Saved Search* link on the top of right column of the module. *My Saved Search*, as one of the Quick Links for Registered Users, will let Users access to *My Saved Search* Page which allow Users to view a list of their saved Search. When click into any Saved Search, Search Results based on its Saved Search Criteria will be displayed.

> To save Search

Registered Users will be able to name and save their Search criteria into *My Saved Search*. *My Saved Search* will let Users to later come back to search again based on Search criteria that they've saved. To save Search, Registered Users, after Login:

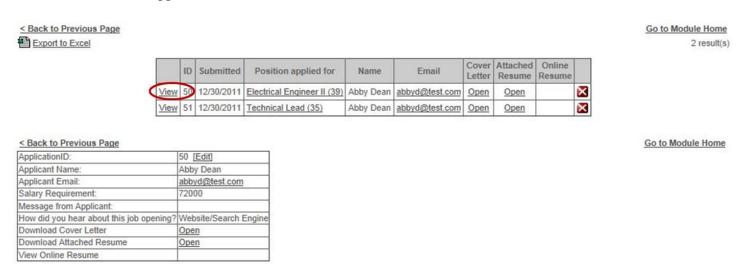

- 1. Input search criteria and click **Search** just like they normally do for Search Listings, then **Saved Search** link will show up just under **Search** button.
- 2. Click *Saved Search* link, then *Saved Search* PopUp Box will open.
- 3. Now, you can name your Search title and save your last Search Criteria into My Saved Search.

My Submitted Applications

Registered users as Job Seekers, after Login, will be able to see *My Submitted Applications* link on the top of right column of Job Board module. This link will allow Job Seekers to access to a List of Job Listings that they've applied and submitted applications to. Also from that List, Job Seekers will be able easily View and Edit their Submitted Applications.

My Listings with Applicants

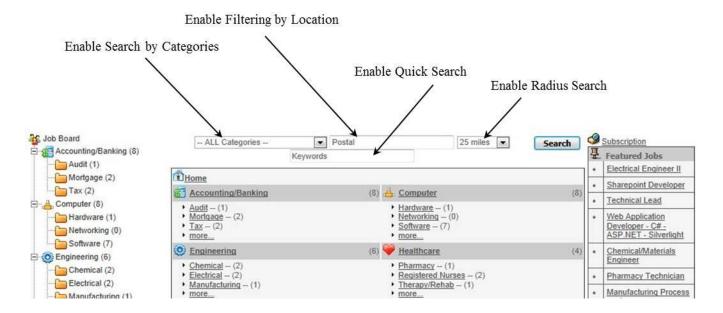

Registered users as Recruiters, after Login, will be able to see *My Listings with Applicants* link on the top of right column of Job Board module. This link will allow those recruiters to simply view their <u>own</u> job Listings which have applications submitted to in DataGrid Views.

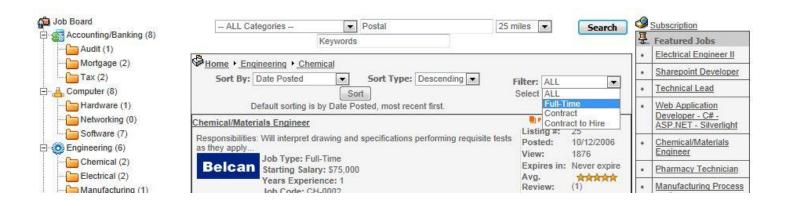

Search Listings

There is an **Enable Quick Search** feature, can be set on **Edit Options** page. When **Enable Quick Search** is enabled, *Search Box* (Search by Keyword) will be activated on the top of the *Main* page. Using this *Search Box* (Search by Keyword) will allow the search results to be embedded in to the main section without leaving the page. After **Enable Quick Search** is enabled, you will be able to enable and add several other Search features in the module such as **Enable searching by Categories**, **Enable filtering by Location**, and **Enable Radius Search** (US) (Required US Zip Code Add-On). Please refer to picture below to see how each *Search* feature is activated. Also, you can enable AutoComplete features for Search by Locations and Search by Keywords. Please also see **Search Settings/AutoComplete** in **Edit Options Instructions**.

Also, Users can sort the Listing Results by Sorting feature (see <u>Manage Sort Options</u> section above) and filter the Listing Results by Employment Type (see picture below and see how to customize your Employment Types in <u>Manage Picklists</u> section above).

Apply for Job

If **Page Options** is enabled (on the **Edit Options** page), the *Apply for this job* link will be shown in **Page Option** section at the bottom of *More-Detail* page. Users will be able to apply for that job if they are in **Roles that can apply for jobs** set in **Roles and Security Settings** section on **Edit Options** page. (See Screen shot on next page)

Also on Edit Options page, Job Board module will be able to set either as Stand Alone Module or to be integrated it with Resume Module.

• If <u>Job Board set as Stand Alone module</u>, user will be able to enter his/her information and also upload resume through Job Board Module.
