Edit Options Instructions for List Manager

(Edit Options Icon, Bottom-Left of your module or under Top Right Arrow Icon of your Module Edit Bar.)

License Verification

Invoice or Transaction ID:
Enter either PayPal Transaction ID or Invoice No (if you buy our modules through Snowcovered)

Website Domain URL:
This is your portal URL that will be automatically populated by the module.

License Verification:
License Verification will enable the enable the update button at the bottom of your *Edit Options* page. This does not require for local address. If you receive an error then please double check to see if both your login account email and module admin email are valid.

General Settings

Main Module Type:
Please select the Main Module Type from the dropdown list. List Manager can be used to pull listings from the following modules.

- Auto Dealer
- Business Directory
- Classifieds
- Real Estate
- Job Board
- Resume Manager

Choose Main Module:
Select the Main Module from the dropdown list (based on your Main Module Type selected above). This Main Module ID will then be stored and used to pull appropriate listings.

Display Mode:
Select either you want to display listings in DataList (with an option to show item image) or DataGrid which has more information.

Filter by Category:
Default is set to "ALL Categories".
To display only listings under a certain category, please choose appropriate category from the Dropdown list. However, this does not include listings under its sub categories.

List Type:
Select List Type from Dropdown List, selection as below:

- Featured Listings.
- New Listings, if selected you will be able to define the number of posted days - in order to be shown as New Listings here.
- My Listings.
- Top 10 Most Viewed Listings.
- Top 10 Least Viewed Listings.
- Expired Listings.
- Expired Listings in 7 days.
- Expired Listings in 30 days.
- Unapproved Listings.

# of Repeat Columns:
Format the list to have a specific number of columns (Up to 4).

Show Item Image: (for **Display Mode** as **DataList only**)
Select whether you want to show item image for each listing.

Show Extra Info: (for **Display Mode** as **DataList only**)
Select whether you want to show extra information base on the followings.

- For Auto Dealer, will show price as extra info.
- For Business Directory, will show location as extra info.
- For Classifieds, will show price as extra info.
- For Real Estate, will show price as extra info.
- For Job Board, will show location as extra info.
- For Resume Manager, will show current career level as extra info.
